

# JASPREET JAWANDA

jaspreetjawanda@proton.me ♦ Greater Toronto Area, Canada

[in/jaspreetj117](#) ♦ [www.jjawanda.me](#)

## SKILLS

---

**Languages:** Python, Java, JavaScript, SQL  
**Frameworks/Tools:** Flask, TensorFlow, Keras, Git, REST APIs, OCR (EasyOCR), Pandas, Numpy  
**Other:** Business Analysis, Pitch Deck Development, Strategic Planning, Case Competitions

## EDUCATION

---

**Wilfrid Laurier University** Sept 2024 – Aug 2029  
Bachelor of Business Administration (BBA), Business Administration  
Bachelor of Science (BSc), Computer Science

## EXPERIENCE

---

**Software Engineer Intern** Jun 2025 – Sept 2025  
Ringball Corporation Mississauga, ON

- Built **Fulfillment Imaging System (FIS)** — Python/Flask app using OCR; reduced packing errors by 35% and raised customer confidence scores by 20%.
- Developed **Inventory** — inventory dashboard + tablet app; cut stock cycle time from 10 to 4 weeks (60% faster) and improved reporting accuracy by 25%.
- Delivered two full-stack applications independently, streamlining warehouse operations and showcasing end-to-end software development skills in a production setting.

**Warehouse Associate** Jun 2023 – Aug 2025  
Ringball Corporation Mississauga, ON

- Supported operations across two summers; strengthened time management, teamwork, and precision in fast-paced warehouse conditions.

## PROJECTS

---

### NotTurboLearn (AI-Powered Study Assistant Prototype)

- Built an AI study assistant that ingests videos, PDFs, and articles, then generates summaries, flashcards, and Q&A modules.
- Integrated LLM prompting with a modular UX to showcase innovative edtech product design.

### Mustang Classifier (Computer Vision Model)

- Developed a TensorFlow/Keras EfficientNet-B2 model to classify Ford Mustang images with ~92% accuracy.
- Built and labeled a custom dataset, fine-tuned hyperparameters, and deployed a live demo for end-to-end ML engineering.

### PC Health App Live Case Competition — Semi-Finalist (Top 50 of 240+ Teams)

- Proposed a strategic partnership with Primacy Management Inc. to integrate the PC Health App into 150+ clinics nationwide.
- Developed a 35-slide pitch deck covering impact analysis, implementation strategy, risk mitigation, and contingency planning.
- Recognized for analytical rigor and presentation effectiveness; advanced to semi-finalist stage, placing in top 20%.
